THEREFORE,

Your Petitioners pray for the Government of Canada to conduct a

PARLIAMENTARY REVIEW

of the omissions and inconsistencies in the official United States of America 9/11 Commission Report and of the new forensic evidence listed below. Your petitioners pray that the Government of Canada hear our policy recommendation to protect Canadians against **future acts** of **state sponsored terrorism**.

The **new forensic evidence** includes, but is not limited to:

- Total destruction of buildings with pulverization of concrete floors - proceeding symmetrically through the path of the greatest resistance - at nearly free-fall acceleration;
- Several tons of molten iron/steel found in the debris piles of all 3 high-rises and billions of previously molten iron microspheres in all of the WTC dust;
- Nano-thermite composite incendiaries discovered throughout the WTC dust.
- DVD Material entitled: "9/11: Blueprint for Truth" by AE911Truth.org
- The peer-reviewed paper Active Thermitic Material Discovered in Dust from the 9/11 World Trade Center Catastrophe, by Niels H. Harrit, et al. posted at the Bentham Open Chemical Physics Journal.

Your Petitioners pray for the Government of Canada to conduct a **parliamentary review** using advice from **citizens groups** and **expert witnesses** in the **field of 9/11 studies** in order to protect Canadians against **future acts** of **state sponsored terrorism** and ensure that our **military resources** are spent properly.

Your petitioners, as in duty bound, will ever pray,

The Undersigned
